DEVILBISS

JGV pressure feed spray gun

- Superior Atomisation
- Comprehensive range of precision air caps, tips and needles.
- Durable drop forged aluminium gun body

The DeVilbiss JGV Pressure Feed Spray Gun is a conventional air atomising spray gun designed for use with remote fluid feed from tanks, pumps or with hot spray systems. The gun is manufactured with a stainless steel fluid passageway to enable it to handle waterbased or corrosive coatings as well as a wide range of industrial paints, dyes, stains, varnishes, lacquers and adhesives.
